

PNEUMATIC TUBE SYSTEM ACCESSORIES

4-INCH AND 6-INCH CARRIERS

You asked for a pneumatic tube system carrier that has **easy-to-open and close latches**, **highly durable construction**, **comfortable gripping ends** for easy handling and **extra long-lasting slide bands**. And you want all of these benefits at a **reasonable price**. Introducing 4-inch and 6-inch carriers from Atreo Services. Our carriers are ideal for the safe and reliable transport of laboratory specimens, IV bags, medications, and a wide variety of other critical patient-care items in your hospital.

- + Reinforced body for strength and long-life
- + Extra long-lasting, quick-replace slide bands
- + Reliable pull-action/slam-shut latches
- + Flat-end design for vertical stacking (6-inch carriers only)
- + Contoured finger slots for comfortable gripping
- + Color and half-clear carriers available

Atreo 6-inch carriers are available with two slide band options –an extra long-lasting band made of densely-woven synthetic fibers and our standard long-life band.

Atreo 4-inch carriers are reinforced for strength, have easy-to-open and close slide latches and are affordably priced compared to competitive brands.

We deliver superior value

- + Compatible with any contemporary 4-inch or 6-inch pneumatic tube system
- + Quantity purchase or lease programs
- + Quantity discounts available

Replacement and Repair Program: Ask about Atreo's program to repair carrier latches and slide (wear) bands. Call or email for details.
